

Balance Details – Explains the tuition and fee charges as well as any financial aid and scholarships credits that have been awarded to your account as of 4/1/2023.

---Tuition balances may be adjusted if your student is awarded external scholarships. Please be sure to notify me with the name and amount of the scholarship when you receive a scholarship confirmation.

Payment Schedule – Explains the payment amount due based on the payment schedule selected in your FACTS tuition plan. Payment schedules and options can be adjusted at any time during the year.

--Automatic payment is required from a bank account or credit card. To ensure timely payments, paper invoicing is not an approved payment type.

--An Early Bird Discount of \$100 will be applied to accounts that are paid in full by August 1st, 2023. This discount is automatically applied to all payment plans that choose a 1 time annual payment option. Please let me know if you would like to change your payment plan and take advantage of this discount.

Work Study Grant – The work study program is limited and based on financial need.

--If you requested to participate in the Work Study Program in your FACTS Enrollment Application and your student was approved, you will see a credit listed in the balance detail section of your payment plan. Additional information regarding the work assignment will be sent to you in the near future.

--If you requested to participate in the Work Study Program in your Enrollment Application and do not see a credit listed this means your student has been “waitlisted” for the program. The Business Office will reach out as soon as possible if positions become available.

Parish Assessment Charge –

--Omaha Catholic parishes may pay \$400 per year towards high school tuition accounts. In the Fall parishes will review the list of enrolled students at each Catholic high school and send tuition aid if the student qualifies, based on that parish’s guidelines. Typical guidelines are whether a family is registered at the parish and if they are actively participating within the parish.

--If families list a parish in their enrollment packet and mark Catholic as your religious affiliation, we will not add the parish assessment charge to your estimated tuition plan. If you do not see a \$400 charge, then we have assumed you will receive the parish assessment aid.

--If a parish was not listed and the family is not listed as Catholic in the completed enrollment packet, we have assumed the parish assessment will be charged.

--If we assumed incorrectly to add or remove the parish assessment, the charges will be reversed or added in the Fall when parish assessments are paid to the high schools with the list of students who qualified.
